CMMA9000 - DMx
Version: N/A

Abstract

This article explains how to locate an SKF Multilog DMx On-Line Systems CMMA9000 base serial number.

Overview

There are occasions where it is advantageous to know the serial number of the CMMA9000 base used on a CMMA9910 or CMMA9920 SKF Multilog DMx On-Line System.

The recorded serial numbers for CMMA9910 and CMMA9920 models are actually the serial numbers of the CMMA9010 or CMMA9020 electronic modules, while the CMMA9000 base serial numbers are not recorded as part of the assembly.

To view the serial numbers, turn the latching screws $\frac{1}{4}$ turn counter-clockwise, remove the electronics and turn them over.

The CMMA9010 and CMMA9020 (also CMMA9910 and CMMA9920) serial number is on the label near the recessed connector.

The CMMA9000 serial number is on the label of the base between the retaining screws.
