Product Group: MARLIN I-Pro

Product: CMDM 6700 – Microlog Inspector

Version: N/A

Abstract

Microsoft stopped supporting Office (Word, Excel, etc.) on the operating system that is installed on the SKF Microlog Inspector CMDM 6700 device. Microsoft does have an Office Mobile 2010 application that is free to download, however the installer from Microsoft will not work. This article provides a feasible work around created by a third-party to get the Microsoft Office Mobile application to install. **WARNING:** SKF claims no support or responsibility for this application.

Overview

Download and install the cab file provided in the link below:
