See what's new in Compass Version 1.1.0. New features, enhancements and bug fixes

1. New Features

1.1. User Management:

- Release of a user management application to manage users, sites and roles
- Admin user can add new users to the users list and define the new user's permission for applications and Company-site-Role access.
- Admin can edit exiting user permissions.
- Three roles are available in Compass: 'Admin', 'Analyst' and 'Viewer'

1.2. Report Generator capability:

- User can create and configure the following 2 PDF reports:
 - 'Summarized Asset Health' report - a high-level overview of the last known condition of all assets.
 - 'Detailed Asset Health' report - detailed information about a user-selected list of assets in a specific time range (customer-facing report).
- Create a company cover page and high-level information for the reports.
- Select the company assets
- Add assets to report Hierarchy
- Filter according to asset status and time frame
- Preview of the PDF report before exporting

2. Enhancements

N/A
