See what's new in Compass Version 1.1.3. New features, enhancements and bug fixes.

1. New Features

2. [Feature 724695](#): Update AnalysisBacklog to present @A and @O assets Including "Matching" assets from different sources: If one asset was originally monitored in both sources- @A and @O, it should be possible to match them to view and report it as one asset.

3. Enhancements

1. [770413](#): Remove the 'No Sensor data' alarmClear alarms and mark normal" replacing the "Mark as normal"[770670](#): The asset Status filter was changed to show a list of all asset statuses to be able to check/uncheck each status individually, the way it is done in the report generator. [755797](#): Update the days column filter in Open Recommendations to Checkboxes[742649](#): Add legend to Open Recommendations table + Unitest[721367](#): User management- Listen to SKF-SSO account deletion/deactivation.
When a User is being deleted in SKF-SSO - it should also get removed in our users service - should not be visible anymore in the list of Users.

4. Bug Fixes

| ID | Details |
|--------|---|
| 771868 | Normal Assets remain in Analysis Backlog without receiving new Alarms |
| 771439 | trigger gold layer error |
| 770307 | "Clear" button on filter does not refresh asset list until manual page refresh via refresh icon |
| 770289 | Scrolling is not working on the Dashboard's company list |

5. Known Issues

None
