See what's new in Compass Version 1.2.1: New features, enhancements, and bug fixes.

1. New Features

1.1. [790313](#): Asset Attributes- Tags

In addition to designated attributes, assets has an option to have user-defined tags assigned. Tags are unique per company.

- **Tag is an open list**- it is possible to add, edit, or remove a tag to the list
- **Tag is a multi-select** attribute- each asset can have **several** tag values
- The tag checkbox shall be visually different (square) to indicate that it is possible to choose several tags to set.
- There are two modes: **Add to assets** or **Remove from assets**- to add or remove tags from selected assets

1.2. [784113](#): Sites list + updating sites users

- A new tab in the User Management application to view the site's list and to edit the user per site
